Notes: All gatherings are of 8 leaves; the final gathering is presently of 8 leaves minus one leaf in position 4. The reworking of the pagination in this gathering suggests that not only is the second half of this bifolium missing, but that another complete bifolium was added, and then lost, so that a total of 5 leaves, or 10 pages, is now missing somewhere between the present pp. 294 and 297 (contemporary pagination 294 and 303), except that one leaf, now pp. 295-296 (earlier as pp. 297-298 and then pp. 301-302?) remains present.
